

# C-Control® (KVM) Pro

*Streamline Your Control Room*

## Cluttered Control Room? C-Control is the Solution.

Carrot Medical's **C-Control** (KVM) Pro System is the High-End KVM solution that allows the user to efficiently switch between multiple PCs and/or servers from a single console (keyboard, monitor, mouse setup) for greater efficiency, ease of management, as well as cost & space savings. Included with the **C-Control** Pro is a **C-View** cabinet which houses both a **C-View** Processor and Uninterruptable Power Supply (UPS). It also comes with a **C-View** tablet pre-installed with Renaissance GUI to improve workflow.

### Features:

- Unmatched (2) Year Standard Warranty
- Up to (26) Inputs
- Up to (4) users can be established
- Up to (7) sources can be controlled via key board/mouse with one USB connection
- Remote control of common systems such as Mac Lab, EKG, and PACS for enhanced procedure support
- When interacting with a source it will be locked out, preventing accidental interference from other users
- User-friendly design. Point and click on a source to take control of it
- Absolute and relative mouse modes to support extended desktops

*Before*

*After*

### Features Continued:

- (1) Year Standard Warranty
- Up to (9) Inputs
- Up to (4) users can be established
- Up to (3) sources can be controlled via keyboard/mouse with one USB connection
- (1) - 43" 4K Monitor
- Remote control of common systems such as Mac Lab, EKG, and PACS for enhanced procedure support
- When interacting with a source it will be locked out, preventing accidental interference from other users
- User-friendly design. Point and click on a source to take control of it
- Absolute and relative mouse modes to support extended desktops
- Supports Microsoft®, Apple®, and Linux® based systems

*"Our control room in our new Cath Lab was cluttered with multiple monitors and keyboards. We decided to go with Carrot Medical's **C-Control** (KVM) solution to clean that up. We like the way we can view up to (9) imaging modalities now with a single keyboard and mouse. The user interface is also very intuitive."*
